The Investment Management Agreement dated 12 April 2016 between the ICAV and the Investment Manager provides that in the absence of negligence, wilful default, fraud or bad faith, neither the Investment Manager nor any of its directors, officers, employees or agents shall be liable for any loss or damage arising out of its performance of its obligations and duties under the Investment Management Agreement. The ICAV is obliged under the Investment Management Agreement to indemnify the Investment Manager out of the assets of the Fund from and against any and all claims, actions, proceedings, damages, losses, liabilities, costs and expenses (including legal fees and expenses) directly or indirectly suffered or incurred by the Investment Manager in connection with the performance of its duties and/or the exercise of its powers under the Investment Management Agreement, in the absence of any negligence, wilful default, bad faith or fraud.

INVESTMENT OBJECTIVE AND POLICIES

Investment Objective

The investment objective of the Fund is to provide long term capital appreciation.

Investment Policies

The Fund will seek to achieve its investment objective by investing approximately 85-90% of its net assets in equities and American Depository Receipts ("ADRs") which are listed or traded on recognised markets in the United States, and the FDI's listed below. The Fund will seek to maintain a cash balance of 2.5% but will allow the range of cash to fluctuate between 1% and 4% of the portfolio. In addition, the fund will maintain an approximate cash balance of 10% to be used as collateral for the FDI's.

The Fund will seek to hedge its investments in equities and ADR's against market movements using mini S&P 500 futures contracts of equal notional value to the long positions in order to isolate the exposure of the Fund to relative movements in the price of its equity and ADR positions as against the market. Mini S&P 500 futures contracts are contracts whose size is 50 times the value of the S&P 500 stock index instead of the usual 250 times. The Fund will typically have up to 92.5% exposure to long positions, and up to 92.5% exposure to short positions.

The Fund will have a predominant exposure to US equity markets across all industries and sectors.

The Investment Manager will invest in a selection of equity holdings favoured by a carefully selected group of hedge fund managers which have demonstrated a strong stock-picking record over time, and whose hedge fund may be closed to new investments, or may have prohibitively high minimum investment levels. The Investment Manager may select up to 10 hedge fund managers utilizing its proprietary database, extensive experience, and both quantitative and qualitative analysis of hedge fund managers across factors including their longevity and historical performance, their investment style, the holding periods of their investments and what percentage of returns are derived from their top holdings.

The Investment Manager will analyse the equity holdings of the selected 10 hedge fund managers from publicly available filings which indicate the investment positions of the hedge fund managers by market value. The Fund will generally invest in a diversified portfolio of 40-50 different equity positions selected from the five top-performing equity allocations of each of the 10 hedge fund managers the Investment Manager has selected. These positions must be US-listed, publicly traded equities and ADRs. The Investment Manager will adjust these positions on a quarterly basis or more frequently depending on cash flows and other public information released on the selected hedge fund manager's allocations.

While the Investment Manager typically expects its selection of hedge fund managers and investment positions to be diversified by investment style (growth, value, opportunistic, event-driven, etc.) however this may change due to market conditions, correlation among positions, changes in the relevant hedge fund manager's performance, approach or personnel or for any other reason the Investment Manager may consider appropriate. For the avoidance of any doubt, the hedge fund managers selected by the Investment Manager will not have any discretionary investment management authority over the Fund.

The Fund may employ the investment techniques and instruments listed below, for investment and hedging purposes, where provided for in the Fund's Risk Management Process. The Fund will only

take short positions through FDI i.e. synthetic short exposure rather than physical short sales. Synthetic short positions will only be used for hedging. The Fund may only utilise FDIs listed in the Risk Management Process once cleared by the Central Bank.

Derivative	Specific Use	Where hedging: risk being hedged	EPM?	How FDI will help achieve investment objectives?
Currency Forward Contracts	Hedge the portfolio which has the U.S. Dollar as its Base Currency for share classes denominated in non-U.S. Dollar currencies	Currency Risk	Yes	Hedge foreign currency exposure for non U.S. Dollar denominated share class and prevent NAV fluctuations caused by currency movements for these share classes.
Equity and Equity Index Futures	Equity futures are used to manage the Fund's exposure to fluctuations in the prices of individual equity positions. Equity index futures provide hedging benefits and are used to protect portfolio value against fluctuations in equity markets. Equity indices will comply with the Regulations and the Central Bank UCITS Regulations.	Market Risk	Yes	Assist in capital protection which helps the Fund achieve its objective of generating positive returns in all market phases.

The Fund's global exposure will be calculated using the commitment approach and leverage will not exceed 100% of its net assets at any time. Simple leverage is calculated as being global exposure divided by the Fund's Net Asset Value. The Investment Manager will measure global exposure and leverage daily.

Hedging

The Fund will seek to hedge against currency risk arising from Shares being designated in a currency other than the Base Currency. There can be no assurance that such hedging transactions will be effective so far as the Shareholders of the relevant Classes are concerned. The Fund will seek to hedge overall long equity exposure so as to generate its returns from the Fund's exposure to individual equity positions irrespective of the direction of market movements.

PROFILE OF A TYPICAL INVESTOR

The Fund is suitable for investors who are willing to tolerate medium to high risks and who are seeking a portfolio which has a long term horizon.

BORROWING

The Fund may borrow monies from time to time to facilitate redemption payments or for other temporary purposes, with borrowings permissible up to a maximum of 10% of Net Asset Value of the Fund.

INVESTMENT RESTRICTIONS

The investment restrictions set out in the Prospectus are deemed to apply at the time of purchase of the Investments. If such limits are exceeded for reasons beyond the control of the ICAV, or as a result of the exercise of subscription rights, the ICAV must adopt, as a priority objective, the remedying of the situation, taking due account of the interests of Shareholders.

The Directors may, however, at their absolute discretion from time to time and subject to notifying shareholders, impose such further investment restrictions as they shall determine shall be compatible with or in the interest of the Shareholders, including in order to comply with the laws and regulations of the countries where Shareholders are located provided that the general principles of diversification and other investment restrictions set out in the Prospectus are adhered to in respect of the Fund's assets.

INVESTMENT RISKS

Investment in the Fund carries with it a degree of risk including, but not limited to, the risks described in the "Investment Risks" section of the Prospectus. These investment risks are not purported to be exhaustive and potential investors should review the Prospectus and this Supplement carefully and consult with their professional advisers before making an application for Shares. There can be no assurance that the Fund will achieve its investment objective.

The ICAV reserves the right to reverse any allotment of Shares in the event of a failure by the Shareholder to settle the subscription monies on a timely basis. In such circumstances, the ICAV shall compulsorily redeem any Shares issued and the Shareholder shall be liable for any loss suffered by the ICAV in the event that the redemption proceeds are less than the amount originally subscribed for.

REDEMPTIONS

Redemption of Shares

Shareholders may request the Fund to redeem their Shares on and with effect from any Dealing Day at the Net Asset Value per Share calculated at the Valuation Point immediately preceding the relevant Dealing Day less any applicable Duties and Charges and such other adjustment as the Directors may from time to time determine including, without limitation, any anti-dilution levy to cover dealing costs and to preserve the value of the relevant Fund's underlying assets and any adjustment required for

exchange fees as described under "Switching between Share Classes" below, provided that no redemption charge will apply to a redemption of Shares unless it is part of a switch between Share Classes as detailed below.

Redemption requests should be made on the Redemption Form (available from the Administrator) which should be posted or sent by facsimile to the Administrator no later than the Dealing Deadline. The address for the Administrator is set out in the Redemption Form. Subject to the foregoing, and to the receipt of the original Application Form and all anti-money laundering documentation and completion of all anti-money laundering checks, redemption proceeds will be paid by electronic transfer to the Shareholder's account specified in the Application Form normally within 3 Business Days from the deadline for receipt of redemption requests. Redemptions will not be processed on non-verified accounts.

Any failure to supply the ICAV or the Administrator with any documentation requested by them for anti-money laundering purposes, as described above, may result in a delay in the settlement of redemption proceeds. In such circumstances, the Administrator will process any redemption request received by a Shareholder, however the proceeds of that redemption shall remain an asset of the Fund and the Shareholder will rank as a general creditor of the ICAV until such time as the Administrator has verified the Shareholder's identity to its satisfaction, following which redemption proceeds will be released.

SWITCHING BETWEEN SHARE CLASSES AND FUNDS

A Share exchange may be effected by way of a redemption of Shares of one class and a simultaneous subscription at the most recent NAV per Share for Shares of the other class. The general provisions and procedures relating to redemptions and subscriptions for Shares as set out above will apply.

Redemption proceeds will be converted into the other currency at the prevailing rate of exchange available to the Administrator and the cost of conversion will be deducted from the amount applied in subscribing for Shares of the other class.

If a shareholder switches more than twice in one calendar year between classes of Shares, an exchange fee not to exceed 1% of the redemption proceeds of the class of Shares which is being exchanged with another class of Shares of the Fund may be payable on each exchange. If the exchange fee is charged, then the redemption proceeds of the Class of Shares which is being exchanged will be reduced by the amount of the exchange fee and the net amount applied in subscribing for Shares of the other Class. The Directors or their delegates may waive the payment of the exchange fee at their discretion. Where charged, the exchange fee will be retained by the ICAV.

If a shareholder switches more than twice in one calendar year between different Funds of the ICAV, an exchange fee not to exceed 1% of the redemption proceeds of the Shares which are being exchanged with Shares of the other Fund of the ICAV may be payable on each exchange. If the exchange fee is charged, then the redemption proceeds of the Shares which are being exchanged will be reduced by the amount of the exchange fee and the net amount applied in subscribing for Shares of the other Fund of the ICAV. The Directors or their delegates may waive the payment of the exchange fee at their discretion. Where charged, the exchange fee will be retained by the Fund of the ICAV from which the redemption side of the exchange is taking place.

DIVIDEND POLICY

The ICAV does not anticipate distributing dividends from net investment income in respect of the Fund but the ICAV reserves the right to pay dividends or make other distribution in the future. Initially such amounts will be retained by the ICAV and will be reflected in the Net Asset Value of the Fund.
