Commentary

The Fund registered a positive performance during the month again thanks to the positive performance realized on the equity part of the portfolio. On the equity side, the main contributors to the Fund's performance were Cementir, Intesa Sanpaolo, Saes Getters, LVMH and Leonardo. Cementir rose as the CEO confirmed the FY 2017 guidance during the AGM, and the stock also benefitted from the broad-based strong performance registered by the small-mid caps. Intesa bounced strongly following French election as the bank clearly benefitted from a risk-on environment. Saes Getters continued its strong performance sustained by the positive business momentum. LVMH rose strongly following very positive Q1 results and the announcement of the acquisition of Christian Dior Couture. Among stocks, the only detractor to the Fund performance during the month was the ETF DAXglobal Gold Mining, which declined as gold mining stocks underperformed the equity market despite gold price registering a slight increase over the month. On the fixed income side the performance was negative mainly because of the FX losses registered on the US Treasuries and Government of Norway 2017 bond following the general appreciation of the EUR following the result of French election. During the month we reduced the equity exposure given the higher valuations; in particular we cut our positions in Unicredit, Intesa, Banco BPM, Ebro Foods and Kering, while we increased the stakes in HeidelbergCement, Gerresheimer, Aeffe and Saes Getters.
