Commentary

The Fund outperformed the benchmark this month mainly thanks to the positive development registered by the main holdings. Positive contributors to the Fund's performance were Cementir, Fiat Chrysler Automobiles, ASTM, Mondadori and Norma. Cementir gained outperforming the sector as the company traded at a steep discount to peers while the outlook for FY 2017 is positive. FCA rose amid growing visibility on 2017 and 2018 targets and potential M&A activities. ASTM gained strongly supported by the presentation of the new 2017-2021 business plan. Mondadori rose as the CEO reiterated 2017 targets and potential M&A deals, while the company continued its buy-back plan. Norma gained as the company raised its 2017 guidance following Q2 results ahead of expectations. The main detractors to the Fund performance during the month were Daimler, GEA Group, and Danone. Daimler dropped as the company recalled 3 million Mercedes diesel cars for emissions fix and the three German carmakers face potential new scandal over Antitrust issues. GEA Group declined as the company unveiled Q2 results below expectations and adjusted downwards the FY 2017 guidance. Danone underperformed along with the Food sector because of muted Q2 growth trends, increasing interest rates and weak USD. During the month we took profit on Cementir, Gerresheimer, ASTM and Norma, while we increased the stakes in Autogrill and Continental and we started two new positions in Total and Ontex.
